# Table and Image

| Left align | Center align | Right align |
|------------|--------------|-------------|
| left       | center       | right       |

- image
  - use *figure* (centerize)

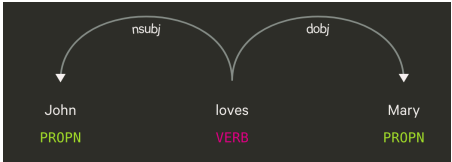

Figure 1. caption

- import directly

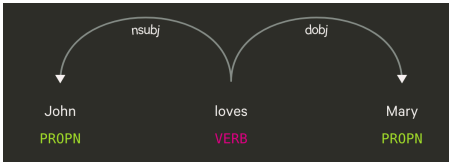

Figure 2. caption

- drawio.svg

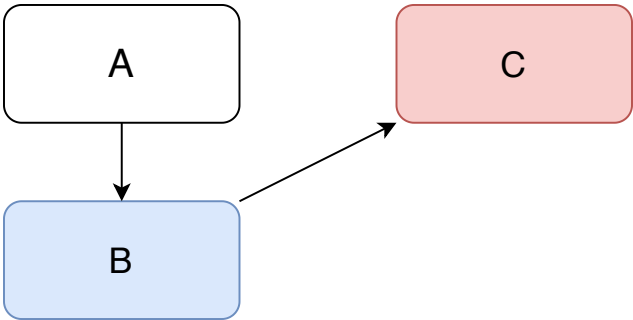

Figure 3. When `sample_diagram.drawio.svg` is edited with the VSCode draw.io extension, the changes are applied automatically.

## 5. Conclusion

# Marp CLI

---

6

### Install:

```
npm install -g @marp-team/marp-cli
```

### Preview / export:

```
marp slide_template.md --preview
marp slide_template.md -o slide_template.pdf
marp slide_template.md -o slide_template.html
marp slide_template.md -o slide_template.pptx
```

### Export with local images:

```
marp slide_template.md --allow-local-files -o slide_template.pdf
```

### Watch mode:

```
marp slide_template.md --watch
```
